

## Licensed Cadastral Surveyors - New Plymouth and Hamilton

BTW prides itself on providing innovative solutions for our clients using leading edge technology. Our company's philosophy is "making it happen" with active management support to ensure that this is achieved. BTW is a wholly New Zealand-owned consulting firm of Surveyors, Engineers, Environmental Scientists, GIS and Planning Specialists who, as a team, offer a one-stop-shop consultancy service.

BTW has been in business since 1973 and, due to increasing client demand along with the establishment of our new office in Hamilton's CBD, we are seeking expressions of interest from skilled people with the right attitude:

- The preferred candidate would have a number of years post-licensing experience, along with local Waikato or Taranaki region experience. A portfolio of unit titles developments and/or large scale greenfield subdivisions would be of benefit. Proficiency in AutoCAD Civil 3D, CivilCAD Magnet or 12D would be an advantage.
- Experience with BIM models, digital data transfers and machine control would also be an advantage and the role allows the opportunity to assist BTW's growth in BIM modelling.
- These are key positions offering excellent opportunities for career development with great camaraderie in a progressive team environment, so we seek candidates looking to advance their career.

BTW offers excellent remuneration with flexible working hours.

Applicants must have experience working in New Zealand.

Please send your application, or further information requests to [vacancies@btw.nz](mailto:vacancies@btw.nz)

We look forward to receiving your application to be considered for an exciting opportunity with BTW.
