

We are seeking an experience survey technician to join our Christchurch team.

Established in Christchurch 26 years ago, we are a medium sized specialist surveying practice who pride ourselves on cost-effective and pro-active solutions to development and surveying applications. We are comfortable working closely with all manner of allied professions and trades and are able to quickly and concisely communicate consultancy advice and information to all parties.

While our main area of work is within the Christchurch region, we have projects all over the South Island.

We are seeking a Survey Technician to join our busy Christchurch office. This is a position involving all types of surveys, including land transfer, engineering set-out and as-builts, topographic mapping and laser scanning. You will have access to modern GPS, Robotic Total Station and surveying software.

The successful applicant will possess the following skills:

- Experience in the New Zealand Land Transfer System.
- Experience in post quake Christchurch a strong advantage.
- A knowledge of 12d, landonline and Autocad software.
- Ability to work well within a team environment.
- Strong written and verbal communication skills.
- A clean drivers licence.
- A desire to be a part of an energising and social office.

In return, we offer a competitive package including professional membership and other benefits.

All applications, including a full curriculum vitae and covering letter, will be treated in the strictest of confidence and should be directed to:

The Manager  
Clark Land Surveyors (2004) Ltd
