

Quality Assurance Assistance Required

We seek the assistance of an experienced person to carry out independent checking of our cadastral data sets prior to lodgement.

Surveying Services carries out work in the Bay of Plenty, Waikato and Coromandel but this work can be undertaken remotely anywhere in NZ or worldwide, requiring only a Land on Line login.

Whether you are a licensed surveyor, technician or other experienced person, we would expect your knowledge of Land on Line and LINZ requirements to be recent and at a high level. Our current preference is to have our QA carried out independently which could result in steady work for you. Primarily office work, this could extend to field checking for the right person.

Please apply to David Laing, Surveying Services Ltd. 07 578 2500 or email dlaing@surveyingservices.co.nz
