

## **Land Surveyor – Cadastral/Construction/Engineering**

Inovo Projects is not your traditional multi-disciplined company. If you are talented and have the right attitude then we are interested in talking to you. With over 40 talented team members, our Inovo office in Christchurch has created a niche that sees us involved with many of the biggest construction and building jobs within the South Island, as well as numerous land development projects. We provide services in:

- Cadastral Surveying
- Land Development Planning
- Resource Management
- Civil Engineering Design
- Construction Surveying
- Development Management
- Project Management
- Project Planning
- Quantity Surveying

In addition our Land Development and Surveying team has a number of residential and commercial land development projects in which we provide and facilitate a full range of services, including Planning, Engineering and Surveying, to take a project from land purchase, to the production of titles, and sometimes even the construction of the subsequent buildings. Our land development team also works in closely with our associated award winning architectural design company, Hierarchy Group, providing assistance with Resource Management and Cadastral Surveying matters.

The successful candidate should ideally be:

- An experienced New Zealand Cadastral Surveyor, or an experienced Survey Technician
- Familiar with Landonline and 12D software
- Confident in conversing with clients
- Able to work independently and organise work programs
- Proficient with field work techniques for GPS and Total Station work
- Have a reasonable knowledge of the RMA and planning process

The work tasks include:

- Infill cadastral subdivision
- Multi-lot developments
- Topographical surveying
- Industrial and engineering set out
- Providing data for BIM surveys
- Level and verticality surveys
- Subdivision Design
- Project Management of Jobs

There are significant opportunities to expand the existing work base for the successful candidate. Apply with your CV, in strict confidence to: [admin@inovo.nz](mailto:admin@inovo.nz). To find out more please contact Peter McAuley on DDI 03 353 4149.
