

Surveyor Taupo Office

McKenzie & Co Consultants Ltd are land development consultants who offer a full end to end service including planning, concepts, engineering, surveying and contract administration.

We are looking for a Surveyor to help get our projects up and running which supports the purpose and mission of McKenzie & Co, this being “to help to develop great places and people”. They will do this whilst working collaboratively to provide excellent surveying services for all projects undertaken by the business.

This is a busy role that works within a high-pressured deadline driven environment. McKenzie & Co is a business that is growing at pace and needs people who are adaptable, flexible and have the energy to add to the ongoing success of the business.

This role would suit someone who is professional, and who is comfortable building and maintaining strong client relationships.

All applicants will have had at least two years’ work experience in New Zealand and will have either the relevant residency status, or be New Zealand residents.

We are looking for Surveyors with a BSurv or equivalent.

Having a minimum of 3 years PQE, plus the use of 12d, AutoCAD and landonline, are critical to this role. Being able to demonstrate “good survey practice” through having a thorough knowledge of GNSS, robotic total stations, leading software for fieldwork, data collection, and data processing are also must haves.

Strong project management skills and experience, good attention to detail skills, having strong communication skills both verbal and written, plus good presentation skills whilst having strong client relationship skills are all essential to this role. Attributes of high integrity and a genuine “Can Do” attitude are musts.

If this sounds like you and you wish to join this small friendly team, then please forward your CV and covering letter to robyn@businesspeople.co.nz no later than Thursday 30 November 2017.
