

Licensed Cadastral Surveyor – Newton Survey

We have an opportunity for a Licensed Cadastral Surveyor to join our established and well-respected survey firm in Richmond, Nelson. We are a small team focused on providing a full professional land development service with a strong focus on customer satisfaction.

We are looking to grow our business and wish to employ a Cadastral Surveyor with a minimum of 5 years NZ experience. Applicants will ideally be confident in all facets of land development projects including planning, engineering design, contract supervision and legal survey. We run AutoCAD Civil 3D software, and GPS and Total Stations in the field. We are looking for someone with exceptional interpersonal communication skills, able to see a project through from beginning to end and who understands that client satisfaction is a key component of how our company operates. We undertake a variety of jobs including rural, rural/residential, urban infill and multi-lot subdivisions in and around the Nelson region.

Newton Survey is a family orientated company. We offer flexible hours and conditions, and a package based on experience. Nelson is an exceptionally desirable place to live and bring up a family. It is well known for its great weather, outdoor pursuits, food, wine and general lifestyle. It continues to grow faster than any other region in NZ and we need another member to join our team to be a part of that.

If you are interested in finding out more, please contact Paul Newton on 027 4787839, or email your CV and covering letter to: paul@newtonsurvey.co.nz.
