

# Intermediate / Senior Survey Technician

## About Us

Civix Limited is a boutique planning, engineering and surveying consultancy located in the Auckland CBD. We pride ourselves on the quality each person brings to our team and are always keen to hear from outstanding individuals to add to our growing, innovative, multi-disciplinary firm.

## Job Tasks and Responsibilities

We have an immediate requirement for a Survey Technician to join our team, working alongside our Licenced Cadastral Surveyor. The successful applicant will be responsible for carrying out a wide range of tasks including cadastral, topographical and engineering surveys, and provide on-going support and assistance to the company. You will have the opportunity to be involved in a variety of land development and infrastructure projects within the wider Auckland Region.

As a Survey Technician you will:

- Be responsible for the preparation, calculation and application of survey information to meet our client's needs including but not limited to engineering set-out, land subdivision, redefinition & topographical surveys.
- Engage in communication a first point of contact with the client, council reps, the public and/or other professionals engaged on the associated projects.
- Have a level of confidence to work un-aided, where necessary.

## You will have

The ideal candidates should possess:

- Tertiary qualification in Land / Engineering Surveying or equivalent

- 3+ years' experience in NZ cadastral surveying
- Proficient with field work techniques for GPS and Total Station work
- Proficient with Magnet Office, 12D and/or AutoCAD, and Landonline
- An overall aptitude for technology and a keen eye for detail.

Full, clean driving licence and a good level of physical fitness essential.

## We offer

- A flexible working environment with work from home opportunities considered
- Friendly office environment
- Support for ongoing professional development, training and mentoring from our Licenced Cadastral Surveyor
- Internal promotion opportunities
- The opportunity to be involved with and exposed to a diverse range and scale of planning and engineering projects.

This is an excellent opportunity to be a key player in a fast-growing company, working with a great team. The role offers the opportunity to broaden your understanding of the development process in a supportive environment, working alongside key project partners. Civix looks after its employees and we offer above market salaries, which comes with a fun, friendly and positive working environment.

If you would like to be an integral part of a growing, innovative multi-disciplinary firm, join us! Apply by emailing your CV and covering letter to Duncan Ross ([duncan@civix.co.nz](mailto:duncan@civix.co.nz)). All applications and enquiries will be treated in the strictest confidence.

Please note that you must have a valid New Zealand work or residency visa to be considered for this position.
