

ROTORUA CONFERENCE - SUPER EARLY-BIRD REGISTRATIONS ARE OPEN!

Registrations for this year's conference are now open!

Hosted under the theme 'The New Normal' the conference will focus on topics around recovery, reshaping and resilience and will look ahead at the challenges and opportunities for our sector in the wake of Covid19.

The conference will take place in Rotorua on the 3rd and 4th of November.

We're also conscious of the economic challenges currently facing members so this year we've introduced a 'Super Early-Bird' conference registration fee (does not include accommodation). This means that, if you register by 23 July, you can do so for the low cost of just \$775+gst – saving you over \$300 on the full registration fee.

As a first mover, you'll also be among the first to receive the conference program when it is released in the coming weeks – and we'll also add you to the early release of all our conference announcements including accommodation options. Members who register at the super early-bird rate will also have their pick of accommodation, as you will no doubt be aware that in the past, rooms at the preferred conference hotels have been snapped up quite quickly.

[Register here for the super early-bird rate.](#)

YOUR MEMBERSHIP IS IMPORTANT TO US

A big thank you to everyone who has paid their membership fee. We are very appreciative and value your continued support which in turn enables us to support our members to grow and

contribute, making a real difference to New Zealand and New Zealanders.

If you haven't paid yet, this is a reminder that the membership renewals are now overdue. Invoices were sent out in early June and members can access their invoice through the online *Dashboard* or email admin@surveyspatialnz.org

Please take a moment to check and Update Your Details

Please take the opportunity while you are logged in to make sure your details are up-to-date. The better we know you, the better we can target our services to you.

BRANCH CHAIRS FORUM LAUNCHED!

We recently hosted our first Branch Chairs Forum – a new initiative designed to open a channel of regular communication between Branches and National Office. Fourteen branch Chairs participated, each giving an overview of what's happening in their area post-Covid19 and

discussing any specific issues they are having in their region. There were a couple of recurring themes that came through - most regions, whilst reasonably positive, are in a 'wait and see' mode regarding the economy and recovery from the lock-down. There was also lively discussion around the varied ways in which territorial authorities deal with surveyors who sign off on engineering work.

The forum will be hosted quarterly, going forward, and is one of a range of initiatives designed to improve communication and enhance the member experience. Branch networking events are scheduled for the following branches in August.

- [Auckland 18 August](#)
- [Tauranga 19 August](#)
- New Plymouth - date tbc.
